

# PROJECT HOMELESS CONNECT

Project Homeless Connect (PHC) is a national model that originated in San Francisco in 2004. PHC has been implemented in over 200 cities across the United States.

The goal of PHC is to provide a one stop shop that offers easy access to services to individuals and families who are homeless. This approach eliminates barriers and ensures the homeless receives services that have an immediate impact.

**Services include:** medical, mental health, substance abuse, housing, dental, benefits, legal, free eyeglasses, ID, food, clothing, wheelchair repair and more.

Come help us help the homeless!

Join us in connecting  
Fairbanks's homeless  
community with services

**Wednesday, 31st March  
2010**
