How to Ride the Bus

First, look at the map on the back of this brochure to find which color bus line (Red, Blue, Green, etc.) takes you to where you want to go. You may need to ride more than one bus to get to your final destination. Let the driver know if you need to connect with another bus. You must pay the fare each time you change buses, unless you purchase a Day or Monthly Pass.

Once you know the color bus line, go to www.macstransit.com or pick up that route's brochure to see what time the bus will stop near where you want to board. Timed stops are listed in the schedules. The maps show timed and other bus stops as well as popular destinations.

Finally, look for the roadside bus stop signs. They are usually two to three blocks apart. Each bus stop has a schedule and map posted for your convenience. Try to be at the stop about five minutes early.

If you have any questions, please ask the driver. Welcome aboard!

MACS buses now have GPS units on board for you to track the location of your bus in real time.
